

Talks

BSPP organises talks on various topics such as interview skills, financial management education, environmental education, infrastructure engineering, information technology and different careers.

Disciplined Force Career Talk

Ning Po College CHAN Hoi Ying Doris

I am so glad that I have the opportunity to join this talk. Through this talk, I have learnt a lot, not just the information and the entry requirements of disciplinary services, but also how to prepare myself to suit these jobs. I think this talk is really helpful, especially for students who concern about their studies and future career. This talk has given details about each job and this definitely helps to settle our uncertainty about the jobs. I believe many students, including me, are looking forward to attending talks of such nature again.

Students learn more about the job natures and entry requirements of different disciplined force in the Career Talks.
